

2026 PHARMACY SUMMER CAMP PROGRAM

INTERNATIONAL YOUTH PROGRAM

Join us this summer to discover the dynamic field of pharmaceutical sciences at one of Canada's premier pharmacy schools!

IYP invites high school students in grades 9–12 to explore key areas in healthcare, with a focus on pharmacology and physiology. Hosted at the Leslie Dan Faculty of Pharmacy at the University of Toronto, the program provides hands-on learning with industry experts. Students will dive into essential topics such as how drugs interact with the body's systems, the basic anatomy and physiology of the human body, and the impact of drug interactions and allergies. Through interactive lectures, group presentations, physical assessments, and case-based problem-solving activities, participants will gain a deeper understanding of both medicine and the human body.

Beyond the academic experience, the camp also offers students the chance to strengthen their academic English through a general English program focused on communication skills and grammar. Alongside these courses, students will enjoy a variety of fun and interactive activities in Toronto—a fantastic opportunity to make new friends, immerse themselves in Canadian culture, and experience the city's vibrant atmosphere.

| Program Information | |
|--|--|
| Students Ages | 14 to 17-year-old students (local and international) |
| Registration Fee | CAD 300 (non-refundable, including interview) |
| Registration Open Date | December 3, 2025 |
| Registration Close Date | May 29, 2026, or until all available spots are filled, whichever occurs first |
| English Proficiency | 70% on the IYP Online English Placement Test, and Successfully pass IYP Online Interview |
| Pharmacy Summer Camp Program is open to group registration (Minimum 15 students per group - Registration fee must be paid for each student upon registration). | |

2026 Pharmacy Summer Camp Intakes:

| Program | Intakes |
|---|----------------------|
| 2 weeks Pharmacy Summer Camp (IYP General English Courses + UofT Pharmacology Courses, University Residence) | • July 12 – July 26 |
| 2 weeks Pharmacy Summer Camp (IYP General English Courses + UofT Human Body/Physiology Courses, University Residence) | • July 19 - August 2 |

Important Note for International Applicants:

For international students who require a visa to enter Canada, please allow enough time for visa application processing. Due to limited intake capacity for this program, we may request that applicants facing visa-related delays consider alternate program options.

2026 PHARMACY SUMMER CAMP PROGRAM

INTERNATIONAL YOUTH PROGRAM

Immersive Learning Journey

- Engage with the world's best teachers.
- Explore the world of pharmacology and communication in healthcare at one of Canada's premier pharmacy schools

2026 PHARMACY SUMMER CAMP PROGRAM

UNIVERSITY OF TORONTO
LESLIE DAN FACULTY OF PHARMACY

INTERNATIONAL YOUTH PROGRAM

About University of Toronto Leslie Dan Faculty of Pharmacy

The Leslie Dan Faculty of Pharmacy at the University of Toronto is Canada's top-ranked pharmacy school and a global leader in pharmaceutical education and research. Home to nearly 1,000 undergraduate and 140 graduate students, supported by over 180 renowned faculty and healthcare experts, the faculty is dedicated to shaping the future of pharmacy through innovative teaching, groundbreaking discoveries, and a commitment to improving health worldwide.

Pharmacy Summer Camp Topics

| Topic | Introduction |
|----------------------------------|--|
| The Human Body/Physiology | Focuses on understanding the basic anatomy and physiology of the human body. Students will learn about the major systems (e.g., cardiovascular, respiratory, and nervous) and how they function together. Activities will include interactive lectures, group presentations, and physical assessments for various conditions that affect the human body. |
| Pharmacology | Participants will explore the principles of pharmacology, including how drugs work in the body, drug interactions, and drug allergies. This week will feature interactive lectures, mystery detective work to figure out the offending agent/poison, and case studies on drug therapies. |
